

San Francisco Bay Area Regional ITS Architecture Steering Committee Meeting #2

Metropolitan Transportation Commission
Fruitvale Room, MTC, 101 Eighth Street,
Oakland, California 94607
03/27/2007

Summary of Maintenance Committee Meeting 01/09/07

- The Committee approved inclusion of the “Golden Gate Bridge Highway and Transportation District Radio Replacement” project in the Bay Area Regional ITS Architecture
- Regional ITS Architecture Update Kick-off
 - Project Overview, Objective, and Schedule
 - Bay Area Regional ITS Architecture Maintenance Committee will act as the Steering Committee during the RA Update

Summary of ITS Plan Stakeholder Workshop Results

- Attendance
- Updated Project List (April 6)
- Element Summary
- Workshop Survey Results
- ITS Issues

ITS Plan Workshop Survey Results

Have you ever used the Bay Area Regional ITS Plan?

- 45% YES
 - Reference – SERF & SEMP
 - System Requirements
 - Test and analyze Smart Corridors software
 - Federal Earmarks
- 55% NO

ITS Plan Workshop Survey Results

How can Bay Area ITS Plan be improved to make it more accessible or useful?

- More well planned training and available online
- Make the plan interactive (sort by Agency, category, project, etc)
- More illustrations about architecture – less perception
- Links to free resources

ITS Issues Discussion

- Stakeholder Workshop #1 identified ITS issues in the Bay Area
- Additional ITS issues not already identified?
- Prioritization
 - ITS issues for inclusion in the ITS Plan
 - Issues for MTC consideration outside of the ITS Plan

ITS Plan Workshop

ITS Issues in the Bay Area

Issues identified at the workshop include:

- Duplication of ITS services
- Sustainability of ITS projects
- Regional resources for O&M
- Explore funding policies that reward integration
- Training opportunities for local agencies
- Need advocates to acquire funding (i.e. bicycle/ped.)

Deliverable #1

Project Inclusion Criteria

- Purpose – to provide guidelines for stakeholders on which projects to submit for the Update
- All ITS Projects submitted to the ITS Plan *except*:
 - Routine O&M
 - Signal re-timing
 - Isolated traffic signals
 - Studies, plans with no implementation
- Provide comments by April 3

Streamlining for Use and Maintenance

- Minimize use of ITS jargon
- Maintain the project focused structure
- Plan shown from each stakeholder's viewpoint
- Web-based Plan rather than a paper document

ITS Plan Workshop

Project focused structure

- Projects will be tied to appropriate categories (market packages)

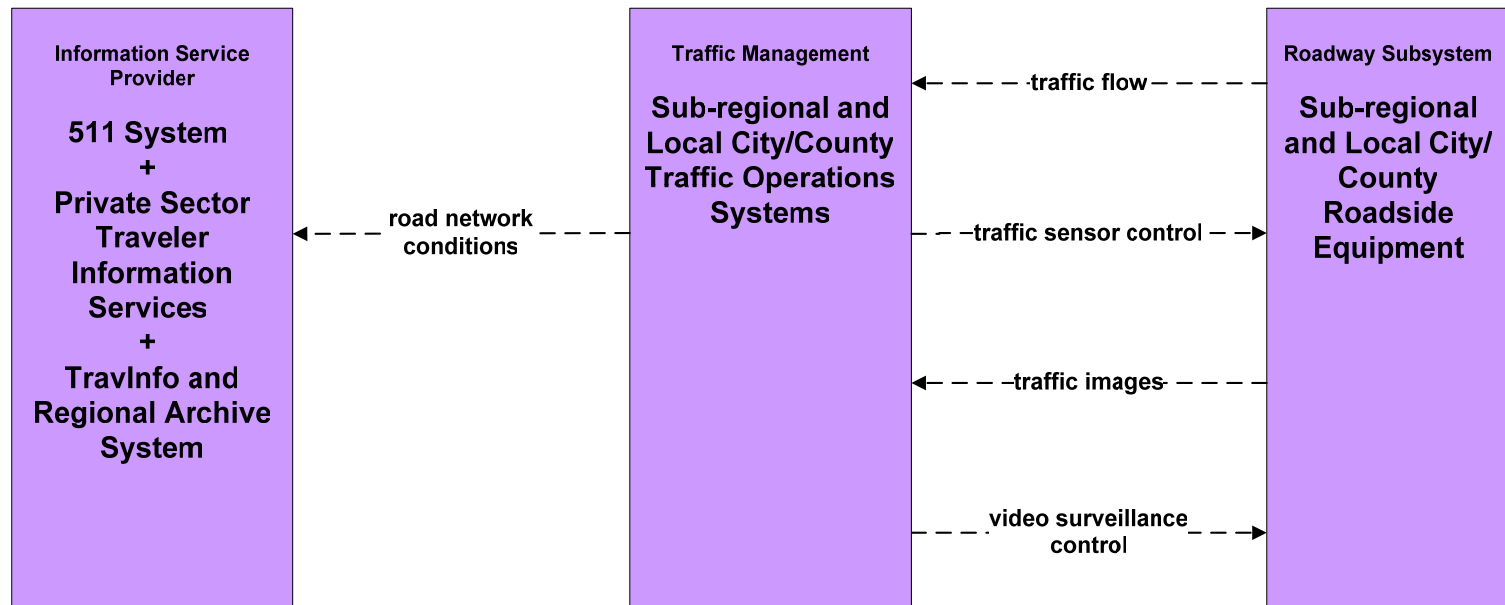

Project ID	Project Name and Location	Description	Lead Agency	Market Packages
12	I-580 Smart Corridor	Phase I includes a fiber-optic communication trunk connecting Dublin, Pleasanton and Livermore TOC's, 3 new TOC's, and discretionary funds for local system improvements.
